RingCentral Webinar™

Extend the reach of RingCentral Meetings™ and make a strong impact with larger audiences by holding trainings, sales presentations, executive briefings, and product showcases. RingCentral Webinar empowers you to make presentations in HD audio and video, across computers, smartphones, and tablets.

Features and benefits

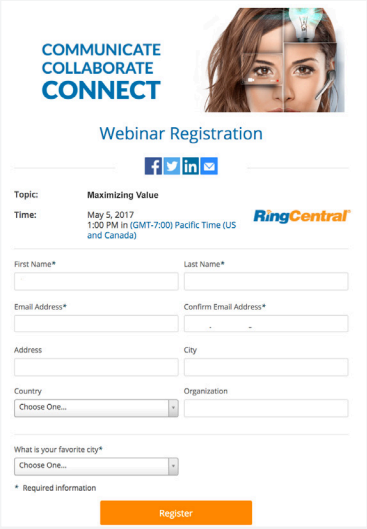
- Host up to 10,000 attendees with as many as 500 presenters in a live webinar session.*
- Train employees, educate partners, showcase your products and services around the world, and save on travel expenses.
- Easily schedule a one-time or recurring event from the web.
- Personalize and send email invitations, confirmations, reminders, and follow-ups.
- The registration form is customizable. Add branding, social media icons, and unique questions.
- Host controls include audio options, chat, content sharing, and participant management.
- Add a virtual background for your presenters: ideal for company branding.
- Make recordings with just a click and easily share your webinars for further trainings, follow-ups, and briefings.
- Survey attendee opinions with polls and pose interactive questions and answers with your audiences.
- Webinar reporting details event performance with data and analytics on registration, attendees, Q&A, and polls.
- Integrate with marketing automation systems for streamlining lead-nurturing workflow within your organization.

*Number of presenters varies based on RingCentral Office® plans. With additional Large Meeting add-on, users can host a webinar with up to 500 presenters (panelists).

Make presentations and trainings with prospects, customers, and partners in HD video and audio. RingCentral Webinar works across your favorite devices, and each event holds up to 10,000 attendees from around the world.

Customize your events

You can brand registration forms with banners and logos that promote the topic and gather relevant attendee information with unique questions. Enable attendees and participants to share upcoming events on social media. Customize event confirmations, reminders, and follow-ups.

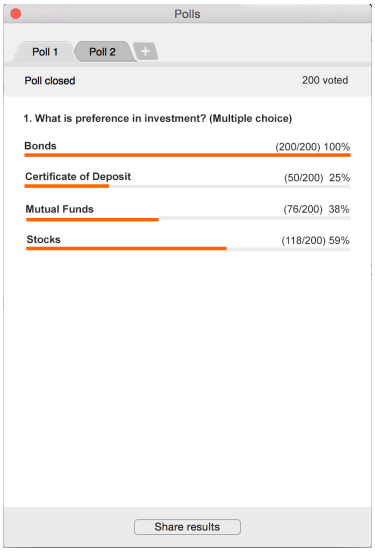


Deliver immersive webinar experiences

The straightforward interface makes it intuitive to share presentations, broadcast content, record events, send polls, and manage questions and answers.

Engage attendees with real-time Q&A and polls

Interact with attendees by responding to their questions live or in a private chat. Create up to 15 polls with as many as 10 questions during each of your webinars. Easily push out the polls and share voting results during the session.



Generate insightful reports

You can export reports with event performance, registration information, attendee lists, questions and answers, and poll results. All data can be generated as a csv file.
